Networking | Suceava

2007 - 2009

Master's degree - Computer and Communication Networks (Master at Stefan cel Mare University)

Telecommunications | Suceava

2002 - 2004

College / Bachelor's degree - I finish the courses of CISCO Network Academy (CCNA)

Networking | Suceava

1998 - 2003

College / Bachelor's degree - Faculty of Electrical Engineering inside "Stefan cel Mare" University from Suceava, at Computers Section (5 years)

Computers | Suceava

1998 - 2003

Highschool - National Collegium "Petru Rares" from Suceava

Mathematic | Suceava

Skills

General skills

Operating systems: - Windows 3.1// 95/98// NT// 2000/XP //2003/2008 server, Linux, FreeBSD, Database : MS. Access Postgres SQL MySQL, Soft: Microsoft Office Corel Dia, Knowledge of current internet standards and protocols, web design, Knowledge of the following: Linux FreeBSD Windows Servers Cisco, Knowledge of Network Security Firewalls software and hardware SSH servers and clients SSL WEB servers (apache) DNS FTP DHCP VPN IPSEC NAT., Knowledge of hardware standards for PC architecture, Knowledge of and working with information technology industry standards and trends, Cisco Router experience., Voice Over IP (H323, MS-DOS)

Foreign languages

English - Advanced

Other info

Qualifications

KNOWLEDGES o Knowledge of current internet standards and protocols o Knowledge of hardware and software network standards and setup of network components; routers, concentrators, switches, media converters, data analyzers, monitoring tools (mrtg,rrdtool,smokeping),mail servers(sendmail, qmail),wireless protocols (802.11a/b/g/gp),zebra, proxy servers and caching engines o Knowledge of the following: Linux, FreeBSD,Windows Servers,Cisco o Knowledge of Network Security, Firewalls software and hardware, SSH servers and clients, SSL, WEB servers (apache), DNS, FTP, DHCP, VPN, IPSEC,NAT.

o Knowledge of hardware standards for PC architecture o Knowledge of and working with information technology industry standards and trends o Cisco Router experience. o Voice Over IP (H323, MGCP, SIP) o VPN LAYER2,LAYER3 (GRE,IPSEC),openvpn o PPPOE Server (with ospf solution) and Radius o Optical fibers diagnostics (OTDR Setup) o Security Audits, documentation of solutions o And many others
acquired on Mar 2015

IMPLEMENTED SOLUTIONS o VPN Layer 3 for data security o VPN Layer 2 with multicast for streaming TV channels (Concentrators with Linux/FreeBSD platforms and Cisco RV042/800 Series/2000 series or other models from different vendors) o Routers with firewalls and traffic shapping o Mail Servers (Qmail+SpamAssasin+ClamAV+Auth+Courier Imap+Webmail+Security Rules) o Mail Servers (Sendmail+SpamAssasin+Eset+Webmail) o PPPoe Servers (With Mysql and FreeRadius) o Microsoft Dynamix AX 2012(Microsoft windows 2008 server + Hyper V Cluster + MSSQL Cluster+ Terminal server) (virtualisation skills) o WEB Applications with MySQL support ...and many others
acquired on Mar 2015

Conferences

2nd World Congress on Computer Applications and Information Systems International Conference on Network Computing and Applications 2015 (ICNCA '2015) Januray 17 - 19 , Hammamet, Tunisia
period Jan 2015 - Jan 2015

Radu-Cezar Tarabuta,Alin Potorac,Balan Doru and Ovidiu Strugaru Improving multimedia Transmission streaming using multiple tunneling method Hammamet, Tunisia. (ICNCA'2015)

Proceedings of the European Conference on the Use of Modern Information and Communication Technologies, Gent, March 2014

period Mar 2014 - Mar 2014

Tarabuta Radu-Cezar, Potorac Alin, Balan Doru and Graur Adrian

University "Stefan cel Mare" Suceava, Romania - Applicability of Amdahl's law in multisession TCP/IP communication ECUMICT 2014 Gent

Electrical and Electronics Engineering (ISEEE), 2013 4th International Symposium on Galati

period Sep 2013 - Sep 2013

Tarabuta Radu-Cezar, Potoroac Alin and Balan Doru - Full redundant transmission of multicast stream via unicast network ISEEE 2013 Galati

Projects

Improve power capacity and

monitoring period Feb 2014 - Aug 2014

My team install new battery in metro ethernet POP to improve network stability. In this project we install monitoring module RT1 to know when electrical power is down.

Upgrade Firmware on all distribution equipments

period May 2013 - Aug 2013

To increase a network stability we upgrade firmware on all distribution equipments to the clients.

UPGRADE BACKBONE NETWORK

period Mar 2013 - Aug 2013

My team with ECI Telecom employers make many bandwidth update on backbone network segments.We add new lambda on the SDH link and improve backbone capacity with 10G on the ring.

Install Radio Links to other

City period May 2007 - May 2007

In this project we need to make papers (Site survey, Power, Licenses, Simulations, etc) and install radio equipments (NEC PASOLINK, NEC NEO) to make radio links between cities (Suceava-Radauti and Suceava-Falticeni). After that we move clients traffic to new links.

Install backbone links on Suceava/Botosani

districts period Feb 2005 - Apr 2005

In this project we install backbone links in all cities from Suceava/Botosani area. We mount the distribution equipments, make configuration, create ip subnets, implement a monitoring system, install new clients on this infrastructure and many more.

Hobbies

Photo,Travel,Computers

Driving license

Categories A, B

acquired on 10 Jun 1998

Desired job

Job type

Full time

Career level

MANAGEMENT

Desired salary

Desired city

Suceava

Desired job's department

Audit / Consulting, Engineering , IT
Hardware , IT Software ,
Telecommunications

Desired industry

Education / Training, IT / Telecom
